| <ul style="list-style-type: none"><li>• Any and all work experience can help. For example, maybe you worked in retail 10 years ago. Guess what? There are side hustles that involve finding retail products and taking pictures of them. The possibilities are plentiful.</li></ul>                                                                  |
| <ul style="list-style-type: none"><li>• Have you completed <i>any</i> task more than a handful of times? And I mean ANY. I just power washed my outdoor garbage cans for the third time ever last week. The horrible smell is gone, and I plan on doing this monthly. Guess what? People PAY for this as a service! Same with other tasks.</li></ul> |
| <ul style="list-style-type: none"><li>• Are you even vaguely familiar with a topic? WRITE IT DOWN! You never know what kind of knowledge can lead to a side hustle.</li></ul>                                                                                                                                                                        |
| <ul style="list-style-type: none"><li>• Once complete, utilize the worksheet to find ideas. Simply Google search anything from the list plus the term “side hustle” and you should start to find ideas</li></ul>                                                                                                                                     |
| <ul style="list-style-type: none"><li>• Good luck!</li></ul>                                                                                                                                                                                                                                                                                         |
